Participants also agreed that foreseen and upcoming **tasks** together with partner roles were clearly explained, and that generally speaking the meeting as a whole has been **appropriate and productive**.

The partners underlined the **aspects of the meeting that were particularly good**:

- The good preparation and description of **WP1 reports**
- The explanation about **staff cost**
- The comments and **feedbacks from partners**
- The clear **structure of the meeting**: outcomes and decisions have been reached and agreed on.
- The **collaboration and participation** among partners in spite of this tough situation
- There was a chairperson to **lead the meeting** smoothly run

From the above comments, partners seem to appreciate most of all the **collaborative approach** of partners and the efficient **management of the meeting**, which are key aspects for the successful efficiency of the project.

On the other hand, only several aspects seemed to require **improvements**:

- the part of **dissemination**,
- specific **guidelines** for implementing the tasks, with deadlines for activities,
- more participation and **interaction from the Vietnamese Partners** would be welcome.
